TERRA-JET TJ 2808 S

Open door at Melker Baltik

Melker Baltik

Melker Baltik is a trading company from Estonia. Founded in 1992 of Aleksander Nöomaa, Melker Baltik became a well known brand for dig and no dig solutions all over the Baltics.

Everything that belongs to pipeline and underground construction sites you can find at Melker Baltik. Melker provides support and service to all it's customer in the Baltics.

TERRA and Melker Baltik keep its tradition and appreciation as a family business for long time.

Pic. 1: Melker Baltik is the official dealer of TERRA in the Baltics.

Pic. 3: Many visitors attended to the event.

Presentation of the TERRA-JET TJ 2808 S with an air percussion head

Of course Melker and TERRA would show the interested observers something special. The guests should be witnesses when the TERRA-JET TJ 2808 S together with the TERRA-ROCK rock drill head drilled through a granit bolder with 1'000 mm in diameter quite easily.

Pic. 4: The TERRA-JET TJ 2808 S can be adapted with an air percussion head.

Pic. 5: High provided service

Pic. 6: All the customers were very estonished.

TERRA-ROCK Air Percussion Head

Fluid-Rock Drilling

Pic. 7: It took only 13 min to drill through the granit bolder

Pic. 8: The head of the TERRA-ROCK arrives
